Dear Parent/Guardian,

Starting this week on Friday, we would like to offer our children/families the chance of collecting a Moki Activity Tracker from school to wear for a week.

Children who would like one can wear it from collection and then drop it back off in school the following Friday morning. The Moki Activity Tracker can then be scanned in school and steps gained can be logged and recorded. They can then be disinfected, left for 48 hours and prepared ready for collection the following week by another child/family.

We do have a number of Moki Activity Trackers in school. Depending on the uptake, families may be able to take a couple, so brothers and sisters can both wear one during the week.

I wondered whether we could have a little challenge involved too. The 'Moki Marathon Challenge.' During the week, the children wearing the trackers continue to be as active as possible. These steps will be recorded on your tracker as you are keeping active. On returning them to school, we will scan them, total up the number of steps and distances gained by those children and families during the week of wearing them and from this have a running total, a total from that particular week, and a current leader in school with the most steps gained/furthest distance covered.

I believe we could complete a 'Moki Marathon' each week (26.2miles/42.195km). This would be fantastic and a great collective achievement.

It would be superb to share distances covered by our wonderful families and children via social media and have a bit of friendly competition from week to week too.

If you would be interested in taking part in the 'Moki Marathon Challenge' please email head@water.lancs.sch.uk as soon as possible.

This will give us time to prepare the Moki's ready for collection and allocate them with Home Learning Packs. A confirmation email will be sent to notify parents/guardians.

Together, let's keep active, have some fun and complete the challenge!

Thank you for your continued support.

Mr M Smedley
PE Teacher
