

# **Water Primary School – Information for Parents – Food and Drink**

## **School Meals**

All children in Early Years (Reception) are entitled to a universal free school meal every day. There is a range of choices to pick from, including a daily vegetarian option, jacket potato with various fillings and a school prepared, healthy packed lunch.

Water Primary School uses a online payment system called Parent Pay, which allows you to choose your child's lunches ahead of time. You will be given a log in to access this system once during the first week in September.

We encourage all children to take a school prepared meal as it helps with socialisation and supports one of the schools core values of leading a Healthy and Active Lifestyle.

If you prefer, you are free to send your child to school with a home packed lunch.

## **Snack**

In Early Years, we ask that parents provide £1.00 a week for snack. This can be paid in advance for the full half term and will cost £6.00, £7.00, or £8.00, depending on the length of the half term. We will update you on the amount due at the beginning of each half term. This information will be on our web page, in our newsletter, and on Class dojo. Payment can be made directly to Mrs Smith or Mrs Greenwood or via Parent Pay when requested via the school office.

## **Water Bottles**

We will provide your child with an individual water bottle which will remain in school and be available to them throughout the day.
