Monday – Fitness / Circuits

Tuesday – Football

Wednesday – Multi Sports

Thursday –

Friday – Maple Class and Willow Class return.
Running and Smoothie Making

Road Safety

Please can I ask all parents to park safely and sensibly when collecting and dropping off their children. We had a very close call earlier this week when a parked car nearly caused serious injury to one of our pupils. Some parents are choosing to quickly park their car on the curb and are asking their children get out as quickly as they can with no caution or checking for pupils, who may be walking on the pavement. I feel it is only a matter of time before there is a serious accident. Please think carefully and take your time and think of others.

Thank you

COVID

This week we have unfortunately had to close two classes this week due to Covid-19 and the new Delta variant. This new variant is extremely contagious and we must all do all we can to stop the spread and help to limit the disruptions to school, family and learning.

Please follow the rules around isolation, social distancing and if anyone in your family is dsiplaying symptoms please take them for a PCR test. Common symptoms are emerging such as a runny nose, sore throat and headache.

SPorts' Day

Just a quick update regarding the Sports Field, Sports Day and other events.

Due to the extension of restrictions, events such as Sports Day with parents can not be allowed this curriculum year.

We have organsied a Euro20 style Sports Day Event in a few weeks for our pupils, unfortunately the children will need to stay in their bubbles and parents can't attend. However, I am sure the children will have lots of fun. We are now hoping to organise a Sports Day for the whole community and familes in September. Hopefully by then, restrictions will have lifted and the new sports field will also have been completed. Who knows, September may just be the perfect time to complete such events every year.
