**Headteacher: Miss E. McKay**

Dear Families,

### **Kabuki Syndrome Awareness Day Friday 1<sup>st</sup> November 2024**

I am writing to inform you that on Friday 1st November 2024, we will be celebrating Kabuki Syndrome Awareness Day at our school. This is a special occasion that holds significant meaning for our community and we would love for all our children to participate by wearing something green. This could be anything from green socks and headbands to t-shirts or jumpers, so let your child's creativity shine!

You may not be aware, but Kabuki Syndrome is a rare genetic disorder that affects approximately 1 in 32,000 births across all genders, races, and ethnicities. The symptoms can vary widely among individuals, making each person with Kabuki Syndrome unique. By recognising this day, we aim to spread awareness and understanding of the condition within our school community.

As part of our celebrations, we will be holding a special assembly for the children, providing them with the opportunity to learn more about Kabuki Syndrome. Each class will also engage in activities that will enhance their understanding of this important topic.

Let's come together to 'Get your Green on for Kabuki Syndrome Awareness Day' and show your support! There is no need for any donations; we simply ask for your enthusiasm and involvement.

Kind regards  
Mrs Edington and Miss Launder  
SENDCo and Assistant SENDCo
